

Demonstrate your commitment the safety of your employees, customers and suppliers: BS EN ISO 45001

What is ISO 45001?

ISO 45001 is the standard for management systems of occupational health and safety. The objective of it is to reduce occupational injuries and hazards as well as championing and protecting physical and mental health. ISO 45001 replaced OHSAS 18001 which was withdrawn in September 2021.

Why gain BS ISO 45001 certification?

- Reduced risk to employees, customers and suppliers
- Avoid financial costs and reputational damage associated with accidents at work
- Enhanced staff morale and motivation
- Demonstrate your legal and regulatory compliance
- Enhanced status and competitive advantage
- Meet supply chain requirement and/or qualify for a tender or preferred supplier status
- Demonstrable commitment to continuous improvement

“

SCCS have been outstanding with the levels of service they have provided us whilst gaining BS EN ISO 45001 and gives us great satisfaction knowing we have the accreditation and expertise to provide to our clients.

MJ Robinson Structures Ltd

”

SCCS is the UKAS Accredited Certification Body (0021) specifically for companies engaged in design, manufacture and installation of structural steelwork and associated products and services. The objective of the Scheme is to secure high standards of excellence and quality across all processes, procedures, and practices through independent certification to specific standards. The technical knowledge, practical skills and sector experience the team and auditors bring, makes SCCS the go to certification and auditing providers in the steel industry.
